Request Information
Request Description
The user should be able to upload their questions by taking a photo or writing clearly that is acceptable by the app.
Justification
For a better understanding of the question and a better answer, user shall upload the question by typing or uploading a clear photo.
Effect if declined (Risk if the project request is declined)
If this requirement is declined, the aim of the app would be destroyed.

StuddyBuddy		4	10.12.2020
Requesting Firm or Organization			
Contact Personel	Phone No	Fax	e-mail
Sedat Muslu			

Request Information
Request Description
The photos to be uploaded should be checked by a photo verification system..
Justification
The photos to be added to the system shall be filtered by the photo verification system before published. Photos should not have any graphic violence (blood spatter, exposed internal organs, inclusive of body horror elements etc.) in them. Users should only upload photos of the questions.
Effect if declined (Risk if the project request is declined)
If a user adds a photo that has any violence in it, it would be harmful to other users. And the user count of the system would tend to drop because of that.

Request Information
Request Description
The application is free, and the user has the right to ask five questions per day.
Justification
When application is free, more user can access the app and we set a limit to motivate users.
Effect if declined (Risk if the project request is declined)
If the requirement is declined, we should change the prise of app and work to ensure that more users access to app.
Request Alternatives
We define prise of the application and we remove limit of asking questions.

Request Information
Request Description
The system should start in at most 5 seconds.
Justification
When the users tap to the icon of the app, the system should start working within 5 seconds mostly.
Effect if declined (Risk if the project request is declined)
If a user taps to the app's icon and the system will now start working within 5 seconds mostly, they will get upset and end the system because of the human's psychologic reasons. Therefore, to avoid losing users, the system should start in this time period.
